PROFESSIONAL EXPERIENCE

Web Developer / Web Content Publisher | Accenture *(2024 – Present)*

- Create, update, and publish enterprise website pages and content using Sitecore CMS and established publishing workflows.
- Deliver website creation and publishing requests within agreed SLAs; reported approximately 2,956 tasks completed within SLA with zero escalations.
- Perform content and page quality checks, including link validation, layout review, metadata checks, and responsive presentation.
- Follow website governance, SEO, accessibility, and content standards to maintain consistent digital experiences.
- Coordinate with project stakeholders and quality reviewers to resolve publishing issues and deliver accurate updates.

UI Developer / Frontend Developer | Agaetis Technologies *(2022 – 2024)*

- Developed responsive website interfaces using HTML5, CSS3, JavaScript, React.js, and Bootstrap.
- Built and updated UI components and interactive features to support website requirements and usability.
- Tested layouts across browsers and screen sizes and addressed frontend display issues.
- Customized WordPress themes and page layouts using CSS and visual page builders.
- Collaborated with design and development colleagues to implement page requirements and improve user experience.

SELECTED PROJECTS

Multiple URL Opener | React.js, JavaScript, Tailwind CSS
Built a web tool for opening multiple URLs, displaying URL validation results, and identifying duplicate URLs. Deployed on Vercel.
https://multiple-url-opener.vercel.app/

House Of Worktops | Frontend Development
Developed responsive UI components and interactive product features, with attention to cross-browser compatibility and user experience.

Maanch-Invest | WordPress
Customized WordPress themes and page layouts using custom CSS and visual page builders.

Engagement Tracker | React.js

Built React-based features and worked with API integrations in collaboration with backend teams.
